

STRIDE Summer Camp a success

STRIDE volunteers provided fun hands-on experiments for hundreds of 1st through 4th grade children during summer 2018 at the New Castle County Route 9 Library and Innovation Center.

Quote from Diana Brown, New Castle County Community Services Manager:

“STRIDE is a wonderful organization of scientists who love to share their passion and expertise with the community. They provide engaging and fun programs and experiments to interest children in the sciences. Children and adults at the RT9 Library found their programming to be both educational and entertaining!”
